

A Wealth of Opportunities

Mantle Diamonds, a newly established mining company, has recently completed the acquisition of DiamonEx Botswana Limited which owns Lerala Diamond Mine located approximately 360kms north-east of Gaborone. Due to commence operation January 2012, a number of exciting opportunities now exist.

Plant / Mine Manager (M0111)

Together with considerable diamond processing open pit plant experience, you will have good managerial and planning skills in order to guarantee that the plant meets the production plan in line with its goals. Your responsibilities will include: making sure all operations are conducted safely; ensuring all equipment is maintained in accordance with agreed planned maintenance; and strictly monitoring and controlling costs to minimise expenditure in accordance with agreed budgets.

You will be flexible, dedicated and production-oriented. You will have held a similar post previously and recently, and possess an Engineering Degree with at least 10 years work experience in the mining industry.

Mining Manager (M0211)

You will have significant open pit experience, a surface blasting licence and good managerial and planning skills. You will be in charge of a fleet of owner equipment, operator, equipment contractors and drilling contractors. Your responsibilities will include: ensuring all blasting supplies are delivered by explosive suppliers; ore and waste is mined and delivered according to pit production plans; and equipment is operated safely and maintained in excellent order.

You will have an Engineering Degree, as well as a minimum of 5 years senior managerial work experience in the mining industry.

Financial/Administration Manager (M0311)

This role involves managing the financial, accounting and administrative activities of the company. Your key duties will include: financial

reporting; development and implementation of financial management and control systems; coordination and compilation of budgets and forecasts; cash-flow management; and management of financial IT systems.

To succeed in this demanding environment, you will be expected to be professionally dedicated, analytical and highly committed to meeting all reporting deadlines. You will be a qualified CA (ACA, ACCA, CIMA or equivalent) with at least 10 years post qualification experience, 5 of which must be within a mining or similar type of business.

Senior Plant Operators (M0411)

This role entails the overseeing and supervision of the operation aspects of the mine. In particular, you will be in charge of the machinery, equipment functions, overseeing sorters and contractors, safety issues, and all other aspects associated with this senior position.

You will have at least 10 years relevant mining experience and a proven successful track record.

All positions within the mine are accommodated at the Management Camp in Lerala. The 3 managerial positions work on a 1 month on 2 weeks off roster, while the Senior Plant Operators work on a 10 day on 10 day off roster. To expedite your response send your comprehensive CV by e-mail to kefilwe@hrmc.co.bw quoting the appropriate code in the subject box. Closing date for applications is 27 September, 2011. If you have not received an email response within 48 hours, please call Kefilwe Tomeletso.
